

Training Committee of the Human Trafficking Interagency Coordinating Council

Thursday August 16, 2018

Agenda

Call to order and introductions

The legislation establishing the Human Trafficking Interagency Coordinating Council states: “coordinate training on human trafficking prevention and victim services for state and local employees who may have recurring contact with victims or perpetrators.”

What are our recommendations to achieve this?

Which groups of state and local employees have recurring contact and should be included in trainings?

What trainings have these groups already had?

What are their shared training objectives? Who requires specialized training?
